MFL is conducting Reverse Auction for above mentioned Tender. Unlike our past sourcing initiatives, bids for this opportunity will follow through online reverse auction. In this way, a fully transparent, fair market is created, where prospective vendors can evaluate the competition and are provided with opportunity to react as per the competitive live market/ bids & hence can able to modify your bids within the 'pre-intimated' fixed time frame.

We will also take the responsibility to publish the document, for conducting online Reverse auction and the bidding process, train all invited suppliers on how to bid online and conduct the online competitive bidding event and collect post bid cost breakdowns if any. This process shall be managed by M/s National Informatics Centre (hence known as NIC).

The goal of this initiative is to ensure that MFL is receiving the best market prices in the most transparent way and is aligned with right quality suppliers. MFL will keep all information received from suppliers as confidential.

Thanking you for your co-operation and best wishes.
